MATERIAL SAFETY DATA SHEET

		SHEET											
1.	PRODUCT IDENTIFICATION AND COMPANY												
	Issue Date	01.0	01.01.2023 3 years MITASU HYDRAULIC OIL HV-100 Synthetic Blended MJ-534										
	Validity Period	3 ye											
	Product Name	МІТ											
	Product Code	MJ-											
		Mita	Mitasu Oil Corporation										
	Producer	1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp											
2. COMPOSITION													
<u>Z.</u>					Т								
	Base Oil Content	82		92	%								
	Additives Content	8	_	18	%								
3.	HAZARDS IDENTIFICATION												
	Human Health	Product is not hazardous.											
	Eye Contact	Slig	Slightly irritant.										
	Inhalation		Repeated and prolonged over-exposure to oil mists may cause irritation or discomfort.										
	Ingestion	Mini	mal to	xicit	ij.								
	Safety Hazards	Not	classi	fied	as fla	ammable but w	ill burn.						
	Environmental Hazards	Not readily biodegradable.											
4.	FIRST AID												
	Eye Contact	Flush eyes with large amount of water until irritation subsides. If irritation persists, get medical attention.											
	Skin Contact		Flush with large amount of water; use soap if available. Remove contaminated clothing. If irritation persists, get medical attention.										
	Inhalation	Ren	nove t	o fre	sh ai	r. If rapid recov	very does	s not occur, get medi	cal attent	ion.			
	Ingestion	Do r	not inc	duce	vom	iting. If rapid re	ecovery c	loes not occur, get m	edical att	ention.			
5.	FIRE SAFETY												

	Flash Point	>	225	°C																	
	Flammable Limit	pro	ducts i	may i	nclu		de, o	Hazardous combustion kides of sulphur, and inds.													
	Autoignition Temp	>	320	°C																	
	Specific Hazards	incl		Hazardous combustion produc ir, and unidentified organic an																	
	Fire Fighting	spla										se dry chemical, foam or carbon dioxide to extinguish fire. Water may cause plattering or frothing. Use water to cool and protect fire-exposed material. Wear rotective equipment during fire fighting.									
6.	ACCIDENTAL RELEASE MEASURES																				
	Clean-up Procedure Stop the source of leak or release and contain spill if possible. Cover spill with generous amount of inert absorbent material such as sand or earth. Sweep up and remove to suitable, clearly marked containers for disposal in accordance with local regulati.																				
7.	HANDLING AND STO	RAG	E																		
	Handling	Handling temperatures should not exceed 70°C. Wear proper safety protective equipment. Wash hands thoroughly after handling. Water contamination and spillage should be avoided.																			
Storage temperatures should be maintained between 0 to 50°C. Odd toxic fumes may be evolved from decomposition of product if stored safe temperature.																					
8.	EXPOSURE CONTROL/PERSONAL PROTECTION																				
	Exposure Limits		Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 or lower for exposure of 8 hours daily.																		
	Ventilation	Exh	Exhaust ventilation to keep below exposure limits.																		
	Eye Protection	We	ar safe	ety gl	asse	s or face shields i	f spla	shing is likely to occur.													
	Skin Protection	Avo	Avoid repeated and prolonged contact with product. Use oil resistant gloves.																		
	Respiratory Protection	Not	Not normally required unless in confined space.																		
	Body Protection	Use	prope	er pro	tecti			contact. Wear PVC apron if sp	olashes												
	Body 1 Totoction	are	likely	to oc	cur.																
9.	PHYSICAL AND CHEMICAL PROPERTIES																				
	This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not be construed as guaranteeing any specific property of the product.																				
	TEST DESCRIPTION		UN	IIT		METHOD		TYPICAL RESULTS													
	Appearance					Visual		B & C													
	Color		-			D 1500		<1,5													
	Density at 15 °C	П	kg	j/l		D 4052		0,8810													
	Kinematic Viscosity at 40 °C		cS			D 445		99,60													
	u. 70 O																				

	Kinematic Viscosity 100 °C	at	cSt	D 445		14,80							
	Viscosity Index		-	D 2270	-	150							
	Flash Point, COC		°C	D 92		230							
	Pour Point		°C	D 97		-33							
10.	STABILITY AND REACTIVITY												
	Stability Product is stable under normal use conditions.												
	Thermal Decomposition	Carbon monoxide, carbon dioxide, oxides of sulphur and nitrogen and organic and inorganic compound may evolve when subject to heat or combustion.											
	Hazardous Polymerisation	Will not occur under normal conditions.											
	Incompatible Materials	Stro	Strong oxidizing agents. Strong acids										
11.	TOXICOLOGICAL INFORMATION												
	Basis	No toxicological data is available for this product. Information is provided based on the additives, other components and base stock used.											
	Acute Exposure Oral	LD 50 expected to be above 2000 mg/kg											
	Acute Exposure Skin	LD 50 expected to be above 2000 mg/kg											
	Inhalation	Repeated or prolonged exposure to oil mists may cause irritation.											
	Eye Irritation	Slightly irritant.											
	Skin Irritation	Not a skin irritant unless repeated or prolonged contact.											
	Respiratory Irritation	Slight irritant.											
	Carcinogenicity	No data to suggest that product is carcinogenic.											
	Mutagenicity	No data to suggest that product is mutagenic.											
	Other Information	Brief contact with used oil is not expected to have serious effect in humans if the oil is removed thoroughly by washing with soap and water.											
		use. risks	Used engine oils may contain harmful impurities that have accumulated during use. The concentration of such impurities will depend on use and they present risks to health and the environment on disposal. All used oils should be handled with caution.										
12.	ECOLOGICAL INFORMATION												
	Basis			ta is available for ner components ar		t. Information is provided ck used.	d based on						
	Mobility	Liquid under most environmental conditions. Floats on water. It is absorbed by soil and will not be mobile.											

	Persistence/ Degradability	biod	Not readily biodegradable. Major constituents are expected to be inhere biodegradable, but the product contains components that may persist in environment.									
	Bioaccumulation	Has the potential to bioaccumulate.										
	Ecotoxicity	Poor soluble mixture. Practically non-toxic to aquatic organisms. May cause physical fouling of aquatic organisms.										
13.	DISPOSAL CONSIDERATION											
	Product Disposal	Used or waste oil should be recycled or disposed off in conformity to local disposal regulations. Contact local authorities for approved disposal contractor.										
	Container Disposal	Empty drums should be completely drained and sent to a drum reconditioner or properly disposed of. Non-reusable small containers should be recycled or disposed of. Ensure conformity to local disposal regulations.										
4.	TRANSPORT INFORMATION											
	General Information	Not dangerous for conveyance under UN, IMO, ADR/RID and IATA/ICAO codes.										
5.	REGULATORY INFORMATION											
	Not Applicable.											
6.	OTHER INFORMATION											
	The above information hereof. Since the information with which we may suggest modification. This information is formation is formation.	ormations of the contract of t	on co amilia ne inf	ontair ar an forma	ned d sii atior	herein n nce data n, we do	nay be a made not as	applied availat sume a	d under cole subse one subse	onditions quent to nsibility	s beyond the date for the re	our control and hereof may sults of its use.

determination of the suitability of the material for his particular purpose. Therefore, no warranty either express or implied of merchantability or fitness for particular purpose is made with respect to the product
