MATERIAL SAFETY DATA SHEET

		\ <u>\</u>	SHEET											
1.	PRODUCT IDENTIFICATION AND COMPANY													
	Issue Date	01.01.2023												
	Validity Period	3 ує	3 years											
	Product Name	МІТ	MITASU HYDRAULIC OIL AW-32 MJ-543											
	Product Code	MJ-												
		Mita	Mitasu Oil Corporation											
	Producer	Tel:	1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp											
_														
2.	COMPOSITION													
	Base Oil Content	85	-	95	%									
	Additives Content	5	_	15	%									
3.	HAZARDS IDENTIFICATION													
	Human Health	Pro	Product is not hazardous. Slightly irritant.											
	Eye Contact	Slia												
	Inhalation	Repeated and prolonged over-exposure to oil mists may cause irritation or discomfort.						on or						
	Ingestion	Min	Minimal toxicity.											
	Safety Hazards	Not	Not classified as flammable but will burn.											
Environmental Not readily biodegradable.														
4.	FIRST AID													
	Eye Contact		Flush eyes with large amount of water until irritation subsides. If irritation persists, get medical attention. Flush with large amount of water; use soap if available. Remove contaminated clothing. If irritation persists, get medical attention. Remove to fresh air. If rapid recovery does not occur, get medical attention.											
	Skin Contact													
	Inhalation	Ren							ention.					
	Ingestion	Do	not in	duce	vom	iting. If rapid	recovery	does not occ	ur, get medical	attention.				
5.	FIRE SAFETY													

	Flash Point	>	205 °	С									
	Flammable Limit	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.											
	Autoignition Temp	>	300 °	С									
	Specific Hazards	incl		bon n	non	oxide, oxides of		Hazardous combustion produc ir, and unidentified organic ar					
	Fire Fighting	spla	Use dry chemical, foam or carbon dioxide to extinguish fire. Water may cause splattering or frothing. Use water to cool and protect fire-exposed material. Wea protective equipment during fire fighting.										
	ACCIDENTAL RELEA	SE N	IEASUI	RES									
	Clean-up Procedure	gen rem	Stop the source of leak or release and contain spill if possible. Cover spill with generous amount of inert absorbent material such as sand or earth. Sweep up and remove to suitable, clearly marked containers for disposal in accordance with local regulati.										
_													
	HANDLING AND STO	RAG	E										
	Handling	Handling temperatures should not exceed 70°C. Wear proper safety protective equipment. Wash hands thoroughly after handling. Water contamination and spillage should be avoided.											
	Storage	toxi		may	be			ed between 0 to 50°C. Odorou osition of product if stored abo					
i.	EXPOSURE CONTRO	L/PE	RSON	AL PR	ROT	ECTION							
	Exposure Limits		Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 or lower for exposure of 8 hours daily.										
	Ventilation	Exh	Exhaust ventilation to keep below exposure limits.										
	Eye Protection	We	Wear safety glasses or face shields if splashing is likely to occur.										
Skin Protection Avoid repeated and prolonged contact with product. Use oil resistant							n product. Use oil resistant glo	oves.					
	Respiratory Protection Body Protection	Not normally required unless in confined space. Use proper protective equipment to avoid contact. Wear PVC apron if splashes							plashes				
	Body 1 Totobulon	are likely to occur.											
_													
	PHYSICAL AND CHEMICAL PROPERTIES												
	This information is based on our current knowledge and is intended to describe the product for the purposes health, safety and environmental requirements only. It should not be construed as guaranteeing any specific property of the product.												
	TEST DESCRIPTION		UNI	Т		METHOD		TYPICAL RESULTS					
	Appearance		-	\dashv		Visual		B & C					
	Color		-			D 1500		<0,5					
	Density at 15 °C		kg/l			D 4052		0,8650					
	Kinematic Viscosity at 40 °C		cSt			D 445		31,50					
	u. 40 0												

	Kinematic Viscosity	at								
	100 °C	aı	cSt	D 445	5,40					
	Viscosity Index		-	D 2270	105					
	Flash Point, COC		°C	D 92	210					
	Pour Point		°C	D 97	-33					
10.	STABILITY AND REACTIVITY									
	Stability Product is stable under normal use conditions.									
	Thermal Decomposition	Carbon monoxide, carbon dioxide, oxides of sulphur and nitrogen and organic and inorganic compound may evolve when subject to heat or combustion. Will not occur under normal conditions								
	Hazardous Polymerisation									
	Incompatible Materials									
11.	TOXICOLOGICAL INFO	ORM	ATION							
	Basis	No toxicological data is available for this product. Information is provided based on the additives, other components and base stock used. LD 50 expected to be above 2000 mg/kg LD 50 expected to be above 2000 mg/kg Repeated or prolonged exposure to oil mists may cause irritation.								
	Acute Exposure Oral									
	Acute Exposure Skin									
	Inhalation									
	Eye Irritation	Slightly irritant. Not a skin irritant unless repeated or prolonged contact. Slight irritant.								
	Skin Irritation									
	Respiratory Irritation									
	Carcinogenicity	No data to suggest that product is mutagenic. Brief contact with used oil is not expected to have serious effect in humans if the								
	Mutagenicity									
	Other Information									
		Used engine oils may contain harmful impurities that have accumulated during use. The concentration of such impurities will depend on use and they present risks to health and the environment on disposal. All used oils should be handled with caution.								
12.	ECOLOGICAL INFORM	MATI	ON							
	Basis	No ecological data is available for this product. Information is provided based on the additives, other components and base stock used.								
	Mobility			ost environmental con soil and will not be mo	ditions. Floats on water. It obile.					

	Persistence/ Degradability	Not readily biodegradable. Major constituents are expected to be inherently biodegradable, but the product contains components that may persist in the environment. Has the potential to bioaccumulate.										
	Bioaccumulation											
	Ecotoxicity	Poor soluble mixture. Practically non-toxic to aquatic organisms. May cause physical fouling of aquatic organisms.										
13.	DISPOSAL CONSIDERATION											
	Product Disposal	Used or waste oil should be recycled or disposed off in conformity to local disposal regulations. Contact local authorities for approved disposal contractor.										
	Container Disposal	Empty drums should be completely drained and sent to a drum reconditioner or properly disposed of. Non-reusable small containers should be recycled or disposed of. Ensure conformity to local disposal regulations.										
4.	TRANSPORT INFORMATION											
	General Information	Not dangerous for conveyance under UN, IMO, ADR/RID and IATA/ICAO codes.										
15.	REGULATORY INFORMATION											
	Not Applicable.											
16.	OTHER INFORMATION											

The above information is based on data of which we are aware and is believed to be correct as of the date hereof. Since the information contained herein may be applied under conditions beyond our control and with which we may be unfamiliar and since data made available subsequent to the date hereof may suggest modifications of the information, we do not assume any responsibility for the results of its use. This information is furnished upon the condition that the person receiving it shall make his own determination of the suitability of the material for his particular purpose. Therefore, no warranty either express or implied of merchantability or fitness for particular purpose is made with respect to the product or the information contained herein.
