2.	COMPOSITION											
۷.	COMPOSITION				Т			I				
	Base Oil Content	70	_	85	%							
	Additives Content	15	_	30	%							
3.	HAZARDS IDENTIFICATION											
	Human Health	Prod	Product is not hazardous.									
	Eye Contact	Slig	Slightly irritant. Repeated and prolonged over-exposure to oil mists may cause irritation or discomfort.									
	Inhalation											
	Ingestion	Mini	mal to	oxicity	/.							
	Safety Hazards	Not	Not classified as flammable but will burn.									
	Environmental Hazards	Not	readi	ly bio	degr	adable.						
4.	FIRST AID											
	Eye Contact		sh eye medic				ater until	irritation subsides. If irritation	on persists,			
	Skin Contact		Flush with large amount of water; use soap if available. Remove contaminated clothing. If irritation persists, get medical attention. Remove to fresh air. If rapid recovery does not occur, get medical attention.									
	Inhalation	Ren										
	Ingestion	Doı	Do not induce vomiting. If rapid recovery does not occur, get medical attention.									
5.	FIRE SAFETY											

Flammable Limit Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds. Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds. Use dry chemical, foam or carbon dioxide to extinguish fire. Water may cause splattering or frothing. Use water to cool and protect fire-exposed material. Wear protective equipment during fire fighting. 6. ACCIDENTAL RELEASE MEASURES Clean-up Procedure Stop the source of leak or release and contain spill if possible. Cover spill with generous amount of inert absorbent material such as sand or earth. Sweep up and remove to suitable, clearly marked containers for disposal in accordance with local regulati. 7. HANDLING AND STORAGE Handling Handling temperatures should not exceed 70°C. Wear proper safety protective equipment. Wash hands thoroughly after handling. Water contamination and spillage should be avoided. Storage temperatures should be maintained between 0 to 50°C. Odorous and toxic fumes may be evolved from decomposition of product if stored above the safe temperature. 8. EXPOSURE CONTROL/PERSONAL PROTECTION Exposure Limits Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 or lower for exposure of 8 hours daily. Ventilation Exhaust ventilation to keep below exposure limits. Eye Protection Not normally required unless in confined space. Body Protection Use proper protective equipment to avoid contact. Wear PVC apron if splashes are likely to occur. This information is based on our current knowledge and is intended to describe the product for the purposes		Flack Dains		044 0	_							
Flammable Limit products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds. Autoignition Temp > 306 °C Specific Hazards Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds. Use dry chemical, foam or carbon dioxide to extinguish fire. Water may cause splattering or frothing. Use water to cool and protect fire-exposed material. Wear protective equipment during fire flighting. Clean-up Procedure Stop the source of leak or release and contain spill if possible. Cover spill with generous amount of inert absorbent material such as sand or earth. Sweep up and remove to suitable, clearly marked containers for disposal in accordance with local regulati. Handling engeratures should not exceed 70°C. Wear proper safety protective equipment. Wash hands thoroughly after handling. Water contamination and spillage should be avoided. Storage emperatures should be maintained between 0 to 50°C. Odorous and toxic fumes may be evolved from decomposition of product if stored above the safe temperature. EXPOSURE CONTROL/PERSONAL PROTECTION Exposure Limits Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 or lower for exposure of 8 hours daily. Ventilation Exhaust ventilation to keep below exposure limits. Eye Protection Wear safety glasses or face shields if splashing is likely to occur. Skin Protection Not normally required unless in confined space. Body Protection Not normally required unless in confined space. Body Protection Use proper protective equipment to avoid contact. Wear PVC apron if splashes are likely to occur. This information is based on our current knowledge and is intended to describe the product for the purposes health, safety and environmental requirements only. It should not be construed as guaranteeing any specific property of the product. TEST DESCRIPTION UNIT METHOD TYPICAL RESULTS Appearance		Flash Point

10.	STABILITY AND REACTIVITY										
	Stability	Product is stable under normal use conditions.									
	Thermal Decomposition	Carbon monoxide, carbon dioxide, oxides of sulphur and nitrogen and organic and inorganic compound may evolve when subject to heat or combustion.									
	Hazardous Polymerisation	Will not occur under normal conditions.									
	Incompatible Materials	Strong oxidizing ag	ents. Strong acids								
11.	TOXICOLOGICAL INF	OXICOLOGICAL INFORMATION									
	Basis No toxicological data is available for this product. Information is provided bas the additives, other components and base stock used.										
	Acute Exposure Skin	LD 50 expected to I	D 50 expected to be above 2000 mg/kg								
	Inhalation	Repeated or prolonged exposure to oil mists may cause irritation.									
	Eye Irritation	Slightly irritant.									
	Skin Irritation	Not a skin irritant unless repeated or prolonged contact.									
	Respiratory Irritation	Slight irritant.									
	Carcinogenicity	No data to suggest	that product is carci	nogenic.							
	Mutagenicity	No data to suggest	that product is muta	genic.							
Other Information Brief contact with used oil is not expected to have serious effect in humans oil is removed thoroughly by washing with soap and water.											
Used engine oils may contain harmful impurities that have accumulated dur use. The concentration of such impurities will depend on use and they preserisks to health and the environment on disposal. All used oils should be han with caution.											
12.	ECOLOGICAL INFOR	MATION									
	Basis		is available for this p components and ba	product. Information is provided base stock used.	ased on						

	Mobility	Liquid under most environmental conditions. Floats on water. It is absorbed by soil and will not be mobile.									
	Persistence/ Degradability	Not readily biodegradable. Major constituents are expected to be inherently biodegradable, but the product contains components that may persist in the environment.									
	Bioaccumulation	Has the potential to bioaccumulate.									
	Ecotoxicity		Poor soluble mixture. Practically non-toxic to aquatic organisms. May cause physical fouling of aquatic organisms.								
13.	DISPOSAL CONSIDE	DISPOSAL CONSIDERATION									
	Product Disposal		Used or waste oil should be recycled or disposed off in conformity to local disposal regulations. Contact local authorities for approved disposal contractor.								
	Container Disposal	properly	Empty drums should be completely drained and sent to a drum reconditioner or properly disposed of. Non-reusable small containers should be recycled or disposed of. Ensure conformity to local disposal regulations.								
14.	TRANSPORT INFORMATION										
	General Information	Not dangerous for conveyance under UN, IMO, ADR/RID and IATA/ICAO codes.									
15.	REGULATORY INFO	ATORY INFORMATION									
	Not Applicable.										
16.	OTHER INFORMATIO	N									
	The above information is based on data of which we are aware and is believed to be correct as of the date hereof. Since the information contained herein may be applied under conditions beyond our control and with which we may be unfamiliar and since data made available subsequent to the date hereof may sugges modifications of the information, we do not assume any responsibility for the results of its use.
