

MITASU OIL CORPORATION

1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp

MATERIAL SAFETY DATA SHEET

1.	PRODUCT IDENTIFICATION AND COMPANY											
	Issue Date	01.0										
	Validity Period	3 years										
	Product Name	міт										
	Product Code	MJ-	213									
		Mita	asu O	il Co	rpora	ation						
	Producer	Tel:	1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp									
2.	COMPOSITION											
	Base Oil Content	75	-	90	%							
	Additives Content	10	_	25	%							
3.	HAZARDS IDENTIFICATION											
Human Health Product is not hazardous.												
	Eye Contact	Slig	Slightly irritant. Repeated and prolonged over-exposure to oil mists may cause irritation or discomfort. Minimal toxicity. Not classified as flammable but will burn. Not readily biodegradable.									
	Inhalation											
	Ingestion	Min										
	Safety Hazards	Not										
	Environmental Hazards	Not										
4.	FIRST AID											
	Eye Contact		Flush eyes with large amount of water until irritation subsides. If irritation persists, get medical attention.									
	Skin Contact		Flush with large amount of water; use soap if available. Remove contaminated clothing. If irritation persists, get medical attention.Remove to fresh air. If rapid recovery does not occur, get medical attention.Do not induce vomiting. If rapid recovery does not occur, get medical attention.									
	Inhalation	Rer										
	Ingestion	Do										
5.	FIRE SAFETY											

	Flash Point	>	231	°C									
	Flammable Limit	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.											
	Autoignition Temp	>	326	°C									
	Specific Hazards	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.											
	Fire Fighting	Use dry chemical, foam or carbon dioxide to extinguish fire. Water may cause splattering or frothing. Use water to cool and protect fire-exposed material. Wear protective equipment during fire fighting.											
6.	ACCIDENTAL RELEAS	SE N	E MEASURES										
	Clean-up Procedure	gen rem	Stop the source of leak or release and contain spill if possible. Cover spill with generous amount of inert absorbent material such as sand or earth. Sweep up and remove to suitable, clearly marked containers for disposal in accordance with local regulati.										
7.	HANDLING AND STOP	RAG	E										
	Handling	equ	Handling temperatures should not exceed 70°C. Wear proper safety protective equipment. Wash hands thoroughly after handling. Water contamination and spillage should be avoided.										
	Storage	Storage temperatures should be maintained between 0 to 50°C. Odorous and toxic fumes may be evolved from decomposition of product if stored above the safe temperature.											
8.	EXPOSURE CONTROL	L/PE	RSON	IAL P	ROTE	ECTION							
	Exposure Limits		Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 or lower for exposure of 8 hours daily.										
	Ventilation	Exh	aust v	rentila	tion to	o keep below ex	posur	e limits.					
	Eye Protection	We	ar safe	ety gla	asses	or face shields	if spla	shing is likely to occur.					
	Skin Protection	Avo	id rep	eated	and p	prolonged conta	ct with	n product. Use oil resistant glo	ves.				
	Respiratory Protection	Not normally required unless in confined space. Use proper protective equipment to avoid contact. Wear PVC apron if splashes are likely to occur.											
	Body Protection												
9.	PHYSICAL AND CHEM	/ICA		OPER	TIES		_						
	This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not be construed as guaranteeing any specific property of the product.												
	TEST DESCRIPTION		UN	ΙΙТ		METHOD		TYPICAL RESULTS					
<u> </u>	Appearance		-			Visual		B & C

10.	STABILITY AND REACTIVITY										
	Stability	Product is stable under normal use conditions.									
	Thermal Decomposition	Carbon monoxide, carbon dioxide, oxides of sulphur and nitrogen and organic and inorganic compound may evolve when subject to heat or combustion.									
	Hazardous Polymerisation	Will not occur under normal conditions.									
	Incompatible Materials	Strong oxidizing agents. Strong acids									
11											
11.			product Information is provid	ed based on							
	Basis	No toxicological data is available for this product. Information is provided based on the additives, other components and base stock used.									
	Acute Exposure Oral	LD 50 expected to be above 2000 mg/kgLD 50 expected to be above 2000 mg/kgRepeated or prolonged exposure to oil mists may cause irritation.Slightly irritant.Not a skin irritant unless repeated or prolonged contact.									
	Acute Exposure Skin										
	Inhalation										
	Eye Irritation										
	Skin Irritation										
	Respiratory Irritation	Slight irritant.									
	Carcinogenicity	No data to suggest that product is carcinogenic.									
	Mutagenicity	No data to suggest that product is mutagenic.									
	Other Information	d to have serious effect in hun n soap and water.	nans if the								
Used engine oils may contain harmful impurities that have accumulate use. The concentration of such impurities will depend on use and they risks to health and the environment on disposal. All used oils should b with caution.											
12.	ECOLOGICAL INFORM										
12.											
12.	Basis		is available for this pro- components and bas	oduct. Information is provided e stock used.	based on						

	Mobility	Liquid under most environmental conditions. Floats on water. It is absorbed by soil and will not be mobile.										
	Persistence/ Degradability	biodegr	Not readily biodegradable. Major constituents are expected to be inherently biodegradable, but the product contains components that may persist in the environment.									
	Bioaccumulation	Has the potential to bioaccumulate.										
	Ecotoxicity		Poor soluble mixture. Practically non-toxic to aquatic organisms. May cause physical fouling of aquatic organisms.									
13.	DISPOSAL CONSIDE	RATION										
	Product Disposal		Used or waste oil should be recycled or disposed off in conformity to local disposal regulations. Contact local authorities for approved disposal contractor.									
	Container Disposal	properly	Empty drums should be completely drained and sent to a drum reconditioner or properly disposed of. Non-reusable small containers should be recycled or disposed of. Ensure conformity to local disposal regulations.									
14.	TRANSPORT INFOR	MATION										
	General Information	Not dan	Not dangerous for conveyance under UN, IMO, ADR/RID and IATA/ICAO codes.									
15.	REGULATORY INFO	RMATION										
	Not Applicable.											
16.	OTHER INFORMATIC	DTHER INFORMATION										
The above information is based on data of which we are aware and is believed to be correct as of the hereof. Since the information contained herein may be applied under conditions beyond our control with which we may be unfamiliar and since data made available subsequent to the date hereof may suggest modifications of the information, we do not assume any responsibility for the results of its u. This information is furnished upon the condition that the person receiving it shall make his own determination of the suitability of the material for his particular purpose. Therefore, no warranty either express or implied of merchantability or fitness for particular purpose is made with respect to the proor the information contained herein.
