## MATERIAL SAFETY DATA

		3	SHEET										
1.	PRODUCT IDENTIFICATION AND COMPANY												
	Issue Date	01.0	01.01.2023										
	Validity Period	3 уе	3 years										
	Product Name	MIT	MITASU HD TURBO DIESEL CF 50										
	Product Code	MJ-2	MJ-235										
_		Mita	ısu Oi	l Cor	pora	ion							
	Producer	Mitasu Oil Corporation  1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp											
2.	COMPOSITION												
					Т								
	Base Oil Content	80	_	90	%								
	Additives Content	10	_	20	%								
3.	HAZARDS IDENTIFICATION												
_	Human Health												
	Eye Contact	Sligh	Slightly irritant.										
	Inhalation	Rep	Repeated and prolonged over-exposure to oil mists may cause irritation or discomfort.										
	Ingestion	Mini	mal to	xicity	<i>'</i> .								
	0 ( ) 11 1	Not classified as flammable but will burn.											
	Safety Hazards	Not	classi	iica c		Not readily biodegradable.							
	Environmental Hazards				degra	dable.							
	Environmental				degra	dable.							
4.	Environmental				degra	dable.							
4.	Environmental Hazards	Not	readil	y biod	n larg	e amount of water until in	rritation subsides. If irrita	ation persists,

	Flash Point	> 257	°C							
	Flammable Limit	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.								
	Autoignition Temp	> 352	°C							
	Specific Hazards	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.								
	Fire Fighting	Use dry chemical, foam or carbon dioxide to extinguish fire. Water may cause splattering or frothing. Use water to cool and protect fire-exposed material. Wear protective equipment during fire fighting.								
5.	ACCIDENTAL RELEAS	SE MEASU	JRES							
	Clean-up Procedure	Stop the source of leak or release and contain spill if possible. Cover spill with generous amount of inert absorbent material such as sand or earth. Sweep up and remove to suitable, clearly marked containers for disposal in accordance with local regulati.								
7.	HANDLING AND STOP	RAGE								
	Handling	Handling temperatures should not exceed 70°C. Wear proper safety protective equipment. Wash hands thoroughly after handling. Water contamination and spillage should be avoided.								
	Storage		es ma	y be evolved		ned between 0 to 50°C. Odd position of product if stored				
3.	EXPOSURE CONTROL/PERSONAL PROTECTION									
	Exposure Limits	Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 or lower for exposure of 8 hours daily.								
	Ventilation	Exhaust v	Exhaust ventilation to keep below exposure limits.							
	Eye Protection	Wear safety glasses or face shields if splashing is likely to occur.								
	Skin Protection	Avoid repeated and prolonged contact with product. Use oil resistant gloves.								
	Respiratory Protection	Not normally required unless in confined space.								
	Body Protection	Use proper protective equipment to avoid contact. Wear PVC apron if splashes are likely to occur.								
).	PHYSICAL AND CHEMICAL PROPERTIES									
	This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not be construed as guaranteeing any specific property of the product.									
	TEST DESCRIPTION	UN	NT.	ME	THOD	TYPICAL RESULTS

O. STABILITY A	STABILITY AND REACTIVITY									
Stability			nder normal use cond	ditions.						
Thermal Decomposition		Carbon monoxide, carbon dioxide, oxides of sulphur and nitrogen and organic and inorganic compound may evolve when subject to heat or combustion.								
Hazardous Polymerisatio	wil	Will not occur under normal conditions.								
Incompatible	Materials Stro	Strong oxidizing agents. Strong acids								
1. TOXICOLOG	ICAL INFORM	IATION								
Basis		No toxicological data is available for this product. Information is provided based on the additives, other components and base stock used.								
Acute Exposu	ure Oral LD	LD 50 expected to be above 2000 mg/kg								
Acute Exposi	ure Skin LD	LD 50 expected to be above 2000 mg/kg								
Inhalation	Rep	Repeated or prolonged exposure to oil mists may cause irritation.								
Eye Irritation	Slig	Slightly irritant.								
Skin Irritation	Not	Not a skin irritant unless repeated or prolonged contact.								
Respiratory I	ritation Slig	Slight irritant.								
Carcinogenic	ity No	No data to suggest that product is carcinogenic.								
Mutagenicity	No	No data to suggest that product is mutagenic.								
Other Informa		Brief contact with used oil is not expected to have serious effect in humans if the oil is removed thoroughly by washing with soap and water.								
	use risk	Used engine oils may contain harmful impurities that have accumulated during use. The concentration of such impurities will depend on use and they present risks to health and the environment on disposal. All used oils should be handled with caution.								
2. ECOLOGICA	ECOLOGICAL INFORMATION									
Basis			is available for this p components and ba	product. Information is provided	based on					

	Mobility	Liquid under most environmental conditions. Floats on water. It is absorbed by soil and will not be mobile.									
	Persistence/ Degradability	Not readily biodegradable. Major constituents are expected to be inherently biodegradable, but the product contains components that may persist in the environment.									
	Bioaccumulation	Has the potential to bioaccumulate.									
	Ecotoxicity	Poor soluble mixture. Practically non-toxic to aquatic organisms.  May cause physical fouling of aquatic organisms.									
13.	DISPOSAL CONSIDERATION										
	Product Disposal	Used or waste oil should be recycled or disposed off in conformity to local disposal regulations. Contact local authorities for approved disposal contractor.									
	Container Disposal	Empty drums should be completely drained and sent to a drum reconditioner or properly disposed of. Non-reusable small containers should be recycled or disposed of. Ensure conformity to local disposal regulations.									
14.	TRANSPORT INFORMATION										
	General Information	Not dangerous for conveyance under UN, IMO, ADR/RID and IATA/ICAO codes.									
15.	REGULATORY INFORMATION										
	Not Applicable.										
16	OTHER INFORMATION										

## 16. OTHER INFORMATION

The above information is based on data of which we are aware and is believed to be correct as of the date hereof. Since the information contained herein may be applied under conditions beyond our control and with which we may be unfamiliar and since data made available subsequent to the date hereof may suggest modifications of the information, we do not assume any responsibility for the results of its use. This information is furnished upon the condition that the person receiving it shall make his own determination of the suitability of the material for his particular purpose. Therefore, no warranty either express or implied of merchantability or fitness for particular purpose is made with respect to the product or the information contained herein.
