## MATERIAL SAFETY DATA SHEET

		SHEET												
1.	PRODUCT IDENTIFICATION AND COMPANY													
	Issue Date	01.01.2023												
	Validity Period	3 ye	3 years											
	Product Name	MJ-	MJ-312. MITASU CVT FLUID TC Synthetic Tech  MJ-312											
	Product Code	MJ-3												
		Mita	Mitasu Oil Corporation											
	Producer	Tel:	1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp											
2.	COMPOSITION													
	Base Oil Content	82	_	92	%									
	Additives Content	8	_	18	%									
3.	HAZARDS IDENTIFICATION													
	Human Health	Product is not hazardous.												
	Eye Contact	Sligh	Slightly irritant.											
	Inhalation		Repeated and prolonged over-exposure to oil mists may cause irritation or discomfort.											
	Ingestion	Mini	mal to	xicity										
	Safety Hazards	Not	Not classified as flammable but will burn.											
	Environmental Hazards	Not	Not readily biodegradable.											
4.	FIRST AID													
	Eye Contact		h eye: nedic				water unt	il irritation su	ıbsides. If irritation	on persists,				
	Skin Contact	Flush with large amount of water; use soap if available. Remove contaminate clothing. If irritation persists, get medical attention.								minated				
	Inhalation	Rem	ove to	o fres	h air	. If rapid rec	overy does	s not occur,	get medical atte	ntion.				
	Ingestion	Do r	ot ind	uce v	omit/	ting. If rapid	recovery d	loes not occ	ur, get medical a	attention.				
5.	FIRE SAFETY													

_	Flash Point		205	°C								
	Flash Point						II.					
	Flammable Limit	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.										
	Autoignition Temp	>	300	°C								
	Specific Hazards	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.										
	Fire Fighting	splat		o extinguish fire. Water may ca d protect fire-exposed materia								
5.	ACCIDENTAL RELEASE MEASURES											
Clean-up Procedure  Stop the source of leak or release and contain spill if possible. Cover spill vigenerous amount of inert absorbent material such as sand or earth. Sweep remove to suitable, clearly marked containers for disposal in accordance wiregulati.								ep up and				
 7.	HANDLING AND STOR	RAGE	:									
, . 				mne	ratui	res should not exc	ed 7	'0°C. Wear proper safety prote	ective			
	Handling	Handling temperatures should not exceed 70°C. Wear proper safety protective equipment. Wash hands thoroughly after handling. Water contamination and spillage should be avoided.										
	Storage	Storage temperatures should be maintained between 0 to 50°C. Odorous and toxic fumes may be evolved from decomposition of product if stored above the safe temperature.										
8.	EXPOSURE CONTROL/PERSONAL PROTECTION											
	Exposure Limits	Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 or lower for exposure of 8 hours daily.										
	Ventilation	Exhaust ventilation to keep below exposure limits.										
	Eye Protection	Wear safety glasses or face shields if splashing is likely to occur.										
	Skin Protection	Avoid repeated and prolonged contact with product. Use oil resistant gloves.										
	Respiratory Protection	Not normally required unless in confined space.										
	Body Protection	Use proper protective equipment to avoid contact. Wear PVC apron if splashes are likely to occur.										
9.	PHYSICAL AND CHEMICAL PROPERTIES											
	This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not be construed as guaranteeing any specific property of the product.											
	TEST DESCRIPTION		UN	IT		METHOD		TYPICAL RESULTS				
	Color		-			Visual		Red				
	Density at 15 °C		kg/	/I		D 4052		0,8498				
	Kinematic Viscosity at 40 °C		cS	t		D 445		29,79				
	Kinematic Viscosity 100 °C	at	cS	t		D 445		7,081				

	Viscosity Index		-		D 2270		212						
	Flash Point, COC		°C		D 92		210						
	Pour Point		°C		D 97		-45						
10.	STABILITY AND REACTIVITY												
	Stability	Product	is stable	un	der normal use cor	nditio	ns.						
	Thermal Decomposition	Carbon monoxide, carbon dioxide, oxides of sulphur and nitrogen and organic and inorganic compound may evolve when subject to heat or combustion.											
	Hazardous Polymerisation	Will not occur under normal conditions.											
	Incompatible Materials	Strong o	oxidizing a	age	nts. Strong acids								
	TOYIOOL OOLOAL INE		211										
11.	TOXICOLOGICAL INFO	-											
	Basis	No toxicological data is available for this product. Information is provided based on the additives, other components and base stock used.											
Acute Exposure Oral LD 50 expected to be above 2000 mg/kg													
	Acute Exposure Skin LD 50 expected to be above 2000 mg/kg												
	Inhalation	Repeated or prolonged exposure to oil mists may cause irritation.											
	Eye Irritation	Slightly irritant.											
	Skin Irritation	Not a skin irritant unless repeated or prolonged contact.											
	Respiratory Irritation	Slight irritant.											
	Carcinogenicity	No data to suggest that product is carcinogenic.											
	Mutagenicity	No data to suggest that product is mutagenic.											
	Other Information	Brief contact with used oil is not expected to have serious effect in humans if the oil is removed thoroughly by washing with soap and water.											
		rities that have accumulated d ill depend on use and they pre osal. All used oils should be ha	sent										
12.	ECOLOGICAL INFORMATION												
	Basis				s available for this pomponents and ba		uct. Information is provided ba tock used.	sed on					
	Mobility	bility Liquid under most environmental conditions. Floats on water. It is absorbed by soil and will not be mobile.											
	Persistence/ Degradability  Not readily biodegradable. Major constituents are expected to be inherently biodegradable, but the product contains components that may persist in the environment.												

	Bioaccumulation	Has the potential to bioaccumulate.									
	Ecotoxicity	Poor soluble mixture. Practically non-toxic to aquatic organisms.  May cause physical fouling of aquatic organisms.									
13.	DISPOSAL CONSIDERATION										
	Product Disposal	Used or waste oil should be recycled or disposed off in conformity to local disposal regulations. Contact local authorities for approved disposal contractor.									
Empty drums should be completely drained and sent to a drum recondition properly disposed of. Non-reusable small containers should be recycled or disposed of. Ensure conformity to local disposal regulations.											
14.	TRANSPORT INFORMATION										
	General Information	Not dangerous for conveyance under UN, IMO, ADR/RID and IATA/ICAO codes.									
5.	REGULATORY INFORMATION										
	Not Applicable.										
16.	OTHER INFORMATION										
	The above information is based on data of which we are aware and is believed to be correct as of the date hereof. Since the information contained herein may be applied under conditions beyond our control and with which we may be unfamiliar and since data made available subsequent to the date hereof may suggest modifications of the information, we do not assume any responsibility for the results of its use. This information is furnished upon the condition that the person receiving it shall make his own determination of the suitability of the material for his particular purpose. Therefore, no warranty either express or implied of										

merchantability or fitness for particular purpose is made with respect to the product or the information

contained herein.
