## MATERIAL SAFETY DATA SHEET

	S	SHEET									
1. PRODUCT IDENT	PRODUCT IDENTIFICATION AND COMPANY										
Issue Date	01.0	01.01.2024									
Validity Period	3 уе	3 years									
Product Name	МІТ	MITASU DCT 10 FLUID 100% Synthetic									
Product Code	MJ-:	MJ-352									
	Mita	su Oi	l Cor	pora	tion						
Producer	Tel:	1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp									
2. COMPOSITION	COMPOSITION										
Base Oil Content	78	_	95	%							
Additives Content	5	-	22	%							
B. HAZARDS IDENT	HAZARDS IDENTIFICATION										
Human Health	Product is not hazardous.										
Eye Contact	Slig	Slightly irritant.									
Inhalation		Repeated and prolonged over-exposure to oil mists may cause irritation or discomfort.									
Ingestion	Mini	Minimal toxicity.									
Safety Hazards	Not	Not classified as flammable but will burn.									
Environmental Hazards	Not	Not readily biodegradable.									
4. FIRST AID											
FIRST AID											
Eye Contact		Flush eyes with large amount of water until irritation subsides. If irritation persist get medical attention.				n persists,					
Skin Contact  Flush with large amount of water; use soap if clothing. If irritation persists, get medical atte					nove contam	ninated					
Skin Contact		Remove to fresh air. If rapid recovery does not occur, get medical attention.									
Skin Contact Inhalation		nove to	o fres	h air	If rapid recovery doe	es not occur, get m	edical attent	ion.			
	Ren				If rapid recovery doe						

	Flash Point	>	205	°C						
	Flammable Limit	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.								
	Autoignition Temp	>	300			and morganic con	.pou			
	Specific Hazards	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.								
	Fire Fighting	spla	Use dry chemical, foam or carbon dioxide to extinguish fire. Water may cause splattering or frothing. Use water to cool and protect fire-exposed material. Wear protective equipment during fire fighting.							
ó.	ACCIDENTAL RELEA	SE M	EASU	RES						
	Clean-up Procedure	Stop the source of leak or release and contain spill if possible. Cover spill with generous amount of inert absorbent material such as sand or earth. Sweep up and remove to suitable, clearly marked containers for disposal in accordance with local regulati.								
	LIANDI ING AND CTO									
7.	HANDLING AND STO									
Handling Handling temperatures should not exceed 70°C. Wear proper safety prot equipment. Wash hands thoroughly after handling. Water contamination spillage should be avoided.  Storage temperatures should be maintained between 0 to 50°C. Odorou toxic fumes may be evolved from decomposition of product if stored above safe temperature.										
3.	EXPOSURE CONTROL/PERSONAL PROTECTION									
	Exposure Limits	Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 or lower for exposure of 8 hours daily.								
Ventilation Exhaust ventilation to keep below exposure limits.					e limits.					
	Eye Protection	Wear safety glasses or face shields if splashing is likely to occur.								
	Skin Protection	Avoid repeated and prolonged contact with product. Use oil resistant gloves.								
	Respiratory Protection	Not normally required unless in confined space.								
	Body Protection  Use proper protective equipment to avoid contact. Wear PVC apron if splashed are likely to occur.					olashes				
	PUVOIGAL AND QUEMICAL PROPERTIES									
€.	PHYSICAL AND CHEMICAL PROPERTIES									
	This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not be construed as guaranteeing any specific property of the product.

CTIVITY															
Product is stable under normal use conditions.															
Product is stable under normal use conditions.  Carbon monoxide, carbon dioxide, oxides of sulphur and nitrogen and organic and inorganic compound may evolve when subject to heat or combustion.															
Hazardous Polymerisation  Will not occur under normal conditions.  Incompatible Materials  Strong oxidizing agents. Strong acids															
1															
Basis  No toxicological data is available for this product. Information is pr the additives, other components and base stock used.															
Acute Exposure Oral LD 50 expected to be above 2000 mg/kg  Acute Exposure Skin LD 50 expected to be above 2000 mg/kg  Inhalation Repeated or prolonged exposure to oil mists may cause irritation.															
						Slightly irritant.									
						Not a skin irritant unless repeated or prolonged contact.									
Slight irritant.															
No data to suggest that product is carcinogenic.															
No data to suggest that product is mutagenic.															
Other Information  Brief contact with used oil is not expected to have serious effect in huma oil is removed thoroughly by washing with soap and water.															
Used engine oils may contain harmful impurities that have accumulated during use. The concentration of such impurities will depend on use and they present risks to health and the environment on disposal. All used oils should be handled with caution and skin contact should be avoided.															
FCOLOGICAL INFORMATION															
Basis  No ecological data is available for this product. Information is provided based on															
Liquid under most environmental conditions. Floats on water. It															
Persistence/ Persistence/ Degradability  Not readily biodegradable. Major constituents are expected to be inherently biodegradable, but the product contains components that may persist in the

	Bioaccumulation	Has the potential to bioaccumulate.										
	Ecotoxicity	Poor soluble mixture. Practically non-toxic to aquatic organisms.  May cause physical fouling of aquatic organisms.										
13.	DISPOSAL CONSIDERATION											
	Product Disposal	Used or waste oil should be recycled or disposed off in conformity to local disposal regulations. Contact local authorities for approved disposal contractor.										
	Container Disposal	Empty drums should be completely drained and sent to a drum reconditioner or properly disposed of. Non-reusable small containers should be recycled or disposed of. Ensure conformity to local disposal regulations.										
14.	TRANSPORT INFOR	RMATION										
	General Information	Not dangerous for conveyance under UN, IMO, ADR/RID and IATA/ICAO codes.
