MATERIAL SAFETY DATA SHEET

1.	PRODUCT IDENTIFICATION AND COMPANY												
	Issue Date	01.0	01.01.2023										
	Validity Period	3 уе	3 years										
	Product Name	МІТ	MITASU Racing 2T Motorcycle Synthetic Oil										
	Product Code	MJ-9	MJ-922										
		Mita	Mitasu Oil Corporation 1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp										
	Producer	Tel:											
2.	COMPOSITION												
-	Base Oil Content	95	_	99	%								
	Additives Content	1	-	5	%								
<u>^</u>			NI										
3.	HAZARDS IDENTIFICATION												
	Human Health	Proc	Product is not hazardous.										
	Eye Contact	-	Slightly irritant.										
	Inhalation		Repeated and prolonged over-exposure to oil mists may cause irritation or discomfort.										
	Ingestion	Mini	mal to	oxicity	/.								
	Safety Hazards Not classified as flammable but will burn.												
	Environmental Hazards	Not	Not readily biodegradable.										
4.	FIRST AID												
	Eye Contact		Flush eyes with large amount of water until irritation subsides. If irritation persist get medical attention.Flush with large amount of water; use soap if available. Remove contaminated clothing. If irritation persists, get medical attention.										
	Skin Contact												
	Inhalation	Remove to fresh air. If rapid recovery does not occur, get medical attention Do not induce vomiting. If rapid recovery does not occur, get medical attent							ention.				
	Ingestion								attention.				

	Flash Point	>	90	°C								
	Flammable Limit	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.										
	Autoignition Temp	>	185	°C								
	Specific Hazards	inclu	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.									
	Fire Fighting	spla	Use dry chemical, foam or carbon dioxide to extinguish fire. Water may cause splattering or frothing. Use water to cool and protect fire-exposed material. Wear protective equipment during fire fighting.									
6.	ACCIDENTAL RELEAS	SE M	E MEASURES									
	Clean-up Procedure	gen rem	Stop the source of leak or release and contain spill if possible. Cover spill with generous amount of inert absorbent material such as sand or earth. Sweep up and remove to suitable, clearly marked containers for disposal in accordance with local regulati.									
7.	HANDLING AND STOP	RAGE	E									
	Handling	equi	Handling temperatures should not exceed 70°C. Wear proper safety protective equipment. Wash hands thoroughly after handling. Water contamination and spillage should be avoided.									
	Storage	toxic	Storage temperatures should be maintained between 0 to 50°C. Odorous and toxic fumes may be evolved from decomposition of product if stored above the safe temperature.									
8.	EXPOSURE CONTROL	L/PE	RSON	AL P	ROT	ECTION						
	Exposure Limits		Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 or lower for exposure of 8 hours daily.									
	Ventilation	Exh	Exhaust ventilation to keep below exposure limits.									
	Eye Protection	Wea	Wear safety glasses or face shields if splashing is likely to occur.									
	Skin Protection	Avo	id repe	eated	and	prolonged contac	t with	product. Use oil resistant glov	'es.			
	Respiratory Protection	Not	Not normally required unless in confined space.									
	Body Protection	Use proper protective equipment to avoid contact. Wear PVC apron if splashes are likely to occur.										
9.	PHYSICAL AND CHEN	/ICA	L PRC	PER	TIES	5						
	This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not be construed as guaranteeing any specific property of the product.											
	TEST DESCRIPTION		UN	IT		METHOD		TYPICAL RESULTS				
	Appearance		-			Visual		B & C				
	Color		-			D 1500		Blue				
	Density at 15 °C	kg/l D 4052 0,8750										
	Kinematic Viscosity at 40 °C											

	Kinematic Viscosity at 100 °C	cSt	D 445	8,30						
	Viscosity Index	-	D 2270	126						
	Total Base Number	mgKOH/g	D 2896	1,40						
	Flash Point, COC	°C	D 92	95						
	Pour Point	°C	D 97	-15						
	ccs	сР	D 5293	-						
10.	STABILITY AND REACTIVITY									
	Stability Product is stable under normal use conditions.									
	Thermal Decomposition	Carbon monoxide, carbon dioxide, oxides of sulphur and nitrogen and organic and inorganic compound may evolve when subject to heat or combustion.								
	Hazardous Polymerisation	Will not occur under normal conditions.								
	Incompatible Materials	Strong oxidizing agents. Strong acids								
11.	TOXICOLOGICAL INFORMATION No toxicological data is available for this product. Information is provided based on									
	Basis	No toxicological data is available for this product. Information is provided based on the additives, other components and base stock used. LD 50 expected to be above 2000 mg/kg LD 50 expected to be above 2000 mg/kg Repeated or prolonged exposure to oil mists may cause irritation. Slightly irritant.								
	Acute Exposure Oral									
	Acute Exposure Skin									
	Inhalation									
	Eye Irritation									
	Skin Irritation	Not a skin irritant unless repeated or prolonged contact. Slight irritant. No data to suggest that product is carcinogenic.								
	Respiratory Irritation									
	Carcinogenicity									
	Mutagenicity	No data to suggest that product is mutagenic.								
	ed to have serious effect in humans if the ith soap and water.									
		Used engine oils may contain harmful impurities that have accumulated dur use. The concentration of such impurities will depend on use and they prese risks to health and the environment on disposal. All used oils should be han with caution.								
10	ECOLOGICAL INFORM	MATION								
12.										
12.	Basis		is available for this p components and ba	roduct. Information is provided based on se stock used.						

		Liquid upd	or most	anvironmontal con	ditiona El	ooto on water. It						
	Mobility Liquid under most environmental conditions. Floats on water. It is absorbed by soil and will not be mobile.											
	Persistence/ Degradability	Not readily biodegradable. Major constituents are expected to be inherently biodegradable, but the product contains components that may persist in the environment.										
	Bioaccumulation	Has the po	tential to	bioaccumulate.								
	Ecotoxicity			e. Practically non- l fouling of aquatic								
13.	DISPOSAL CONSIDERATION											
	Product Disposal	Used or waste oil should be recycled or disposed off in conformity to local disposal regulations. Contact local authorities for approved disposal contractor.										
	Container Disposal	Empty drums should be completely drained and sent to a drum reconditioner or properly disposed of. Non-reusable small containers should be recycled or disposed of. Ensure conformity to local disposal regulations.										
14.	TRANSPORT INFOR	MATION	1	_								
	General Information	Not dangerous for conveyance under UN, IMO, ADR/RID and IATA/ICAO codes.										
15.	REGULATORY INFO	DRMATION										
	Not Applicable.											
16.	OTHER INFORMATIC											
	The above information is based on data of which we are aware and is believed to be correct as of the hereof. Since the information contained herein may be applied under conditions beyond our control with which we may be unfamiliar and since data made available subsequent to the date hereof may suggest modifications of the information, we do not assume any responsibility for the results of its This information is furnished upon the condition that the person receiving it shall make his own determination of the suitability of the material for his particular purpose. Therefore, no warranty eith express or implied of merchantability or fitness for particular purpose is made with respect to the p or the information contained herein.
