MATERIAL SAFETY DATA SHEET

	PRODUCT IDENTIFICATION AND COMPANY									
	ssue Date 05.11.2024									
	Validity Period	3 years								
Product Name MJ-P08h. MITASU GOLD Plus HYBRID SP 0W-8 GLV-1 100% Synthe Product Code MJ-P08h									-8 GLV-1 100% Synthetic	;
	Producer	Mita	su O	il Corp	ora	tion				
		1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp								
2	COMPOSITION									
_					1	1				
	Base Oil Content	80	-	85	%					
	Additives Content	15	-	20	%					
3	HAZARDS IDENTIFICATION									
	Human Health	Product is not hazardous.								
	Eye Contact	Slightly irritant.								
Inhalation Repeated and prolonged over-exposure to oil mists may cause						sts may cause irritation or	r discomfort.			
	Ingestion	Minimal toxicity.								
Safety Hazards Not classified as flammable but will burn. Environmental Hazards Not readily biodegradable. Hazards										
4	FIRST AID									
	Eye Contact	Flush eyes with large amount of water until irritation subsides. If irritation persists, get medical attention.								
Skin Contact Flush with large amount of water; use soap if available. Remove cor irritation persists, get medical attention. Inhalation Remove to fresh air. If rapid recovery does not occur, get medical at							ailable. Remove contamina	ated clothing. If		
							ccur, get medical attentior	١.		
Ingestion Do not induce vomiting. If rapid recovery does not occur, get medical at								ot occur, get medical atten	tion.	
5 FIRE OAFETY										
5	FIRE SAFETY									

	I	T												
	Flammable Limit	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.												
	Autoignition Temp	> 310 °C												
	Specific Hazards	Not classified as f	lammable but will burn. Ha	zardous combustion products may	v include

6	ACCIDENTAL RELEASE	E MEASURES												
	Stop the source of leak or release and contain spill if possible. Cover spill with generous													
	Clean-up Procedure	amount of inert ab	osorbent material such as s	sand or earth. Sweep up and remo	ove to									
7	HANDLING AND STORA	\GE												
	Handling	Handling tempera	tures should not exceed 70	0°C. Wear proper safety protective	e equipment									
		Handling temperatures should not exceed 70°C. Wear proper safety protective equipment. Wash hands thoroughly after handling. Water contamination and spillage should be avoided.												
	Storage			between 0 to 50°C. Odorous and ition of product if stored above the	safe									
3	EXPOSURE CONTROL/PERSONAL PROTECTION													
	Exposure Limits	Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 or lower for exposure of 8 hours daily.												
	Ventilation	Exhaust ventilation to keep below exposure limits.												
	Eye Protection	Wear safety glasses or face shields if splashing is likely to occur.												
	Skin Protection	Avoid repeated ar	nd prolonged contact with p	product. Use oil resistant gloves.										
	Respiratory Protection	<u> </u>												
	Body Protection	Use proper protect occur.	ctive equipment to avoid co	ntact. Wear PVC apron if splashe	Use proper protective equipment to avoid contact. Wear PVC apron if splashes are likely to

10	STABILITY AND REACT	TIVITY										
	Stability Product is stable under normal use conditions.											
	Thermal Decomposition	Carbon monoxide, carbon dioxide, oxides of sulphur and nitrogen and organic and inorganic compound may evolve when subject to heat or combustion.										
	Hazardous Polymerisation	Will not occur under normal conditions.										
	Incompatible Materials	Strong oxidizing agents. Strong acids										
1	TOXICOLOGICAL INFORMATION											
	Basis	No toxicological data is available for this product. Information is provided based on the additives, other components and base stock used.										
	Acute Exposure Oral	LD 50 expected to be above 2000 mg/kg										
	Acute Exposure Skin	LD 50 expected to be above 2000 mg/kg										
	Inhalation	Repeated or prolonged exposure to oil mists may cause irritation.										
	Eye Irritation	Slightly irritant.										
	Skin Irritation	Not a skin irritant unless repeated or prolonged contact.										
	Respiratory Irritation	Slight irritant.										
	Carcinogenicity	No data to suggest that product is carcinogenic.										
	Mutagenicity	No data to suggest that product is mutagenic.										
	Other Information	Brief contact with used oil is not expected to have serious effect in humans if the oil is removed thoroughly by washing with soap and water.										
		Used engine oils may contain harmful impurities that have accumulated during use. The concentration of such impurities will depend on use and they present risks to health and the environment on disposal. All used oils should be handled with caution.										
2	ECOLOGICAL INFORMATION											
	Basis	No ecological data is available for this product. Information is provided based on the additives, other components and base stock used.										
	Mobility	Liquid under most environmental conditions. Floats on water. It is absorbed by soil and will not be mobile.										
	Persistence/ Degradability	Not readily biodegradable. Major constituents are expected to be inherently biodegradable, but the product contains components that may persist in the environment.										
	Bioaccumulation	Has the potential to bioaccumulate.										
	Ecotoxicity	Poor soluble mixture. Practically non-toxic to aquatic organisms. May cause physical fouling of aquatic organisms.										
3	DISPOSAL CONSIDERATION											
	Product Disposal	Used or waste oil should be recycled or disposed off in conformity to local disposal regulations. Contact local authorities for approved disposal contractor.										
	Container Disposal	Empty drums should be completely drained and sent to a drum reconditioner or properly disposed of. Non-reusable small containers should be recycled or disposed of. Ensure conformity to local disposal regulations.										

14	TRANSPORT INFORMATION											
	General Information	No	Not dangerous for conveyance under UN, IMO, ADR/RID and IATA/ICAO codes.									
15	REGULATORY INFORMATION											
	Not Applicable.											
16	OTHER INFORMATION											
	The above information is based on data of which we are aware and is believed to be correct as of the date hereof. Since the information contained herein may be applied under conditions beyond our control and with
